"Are You Half the Man Your Mother Thought You'd Be?'

New Song Is the Voice of Man's Conscience Crying Out for Right, and Should Be Heard All Over the Land, Says Dorothy Dix.

THERE'S a new sorg—a song with a punch that goes straight for the heart and administers a knockout blow to all who hear it. It is called "Are You Haif the Man Your Mother Thought You'd Be?"

If I were Mr. Carnesse or Mr. Rockefeller or Mrs. Russell Sage, or any other philanthropist with money to spend for the betterment of the world. I'd buy millions of copies of that song and distribute them broadcast over the land. I'd hire musicinus with the voices of angels to sing it in caharets and music halls. I'd have hurdy-gurdies play it on the street corners, and phonographs warble it in parlors, and I'd start the greatest reformation in all blistory.

For that simple little song is the last knowled, the song is the knowled, and successful men, and their mothers sharing in their triumph. And if, as has been said, in France every smerit.

linve you ever watched the expression on the face of a mother as she looked down upon the labe on her breast, particularly if that babe was a man child? In her face you see all love, all tenderness, all bope, all ambition. It is the look that artists have tried to paint and that we call the Madonna expression.

Other people may see in the child only an ugly, red-faced wite of humanity, with rudimentary features, and no hair or eyebrews, and with about as much indication of intelligence in the face as a cream cheese.

But the mother sees the hands of Paderewski in the pudsy little fists, or the brow of a Webster in the baid head, or, the strength of a Jess Willard in the feeble little legs. Always she sees consthing great and good. She never sees the weakling the derelict, the tramp, the drunkard, or the thief that the baby so often becomes. And that it God's mercy to mothers. The romances of a woman's life is not her brief courtship and marriage, as novelists would have us believe. Her real romance begins when she holds.

President.

It is because the eyes of mothers are so full of dreams of what their sons are going to do that they are so noft. They are looking afar off, adown the years, and seeing their sons great and useful, and successful men, and their nothers sharing in their triumph And if, as has been said, in France every suidler curries a marshal's baton in his knapsack, be sure that every American mother cradles a president in her arms.

MAYOR TESTED IN COURTS

Phoenix, Ariz., April 22.-Whether

Finderit, Aril. April 2. Since the mayor of Phoenix has the power to veto any action of the commission will be determined by legal action. In the meantime Richard E. Sloan, whose appointment was opposed by mayor George U. Young, will be recognized as city attorney.

A resolution to this effect was passed at a meeting of the commission after a stormy meeting. Mayor Young was the only member to vote in the negative.

Mayor Young vetoed a resolution appointing Sloan city attorney in place of Young's friend, George D. Christy. The commission claims that there is no clause in the charter giving the mayor the veto power.

Girl Workers Who Win Out The Waitress and Her Recognition.

THERE was a noise and bustle about the immaculate white-ness of the restaurant—sometimes it seemed almost too glaringly white and clean—and the noise seemed to blur into little definite sounds that if just once i could know that someone understood, things would be loss sasier. After all, I'm treated well."

Ruth knew just what a great many other people did not know—that a girl wasn't all clear sailing, this rushing here and there on weary feel, and with perhass not a kind word from norming till night. But places were few and after all, every husiness has its ups and downs.

Each girl who waited in the big Exchange was paid well for her services and had three good meaks a day of nourishing food. Ruth hardly knew how she had happened to think of being a waitrees. She had read a great deal about swiling me's selling one's walk in life, but somehow the stories were always about people who invariably made good and did big things.

Ruth wondered sometimes if there weren't hundreds of girls in the big city who were struggling at smaller linings—girls who never made good in the sense of the word, but who were filling places that were uninteresting at smaller linings—girls who never made good in the sense of the word, but who were summer were filling places that were uninteresting. There ought to be something encouraging for the girl who works, something to tell her bow to make good." Ruth reflected a little someone understood, things once inderstood, thing mended to know that a girl wast. I want to know on many the hard wast. I want to know one one thinks I am a good waitress. If he to be something to the big city who were struggling at smaller linings—girls who never made good in the sense of the word, but who were since.

There ought to be something encouraging for the girl who word, word, and the similed a little wishing.

For the Business Woman

By BEATRICE PAIRFAX.

THE two great don'ts for the business woman are: Don't forget to be womanly, and don't try to be a siren.

Between the hard, assressive masculine type of woman who may aucceed in business (for she cuts herself off by her very success from love and happiness) and the ultra-feminine, clinging-vine business woman who goes down into the man's world like a buntress stalking her prey, there is a safe same road for business women to travel. Meet men in the business world with frank simplicity. They are human before a little feminine finger to offer ing and so are you. They are not wolves seeking for innocent lambs to be twisted.

They are workers—fellow workers. They are workers—fellow workers your feminine that and understanding and gentleness have their place in the scheme of things.
